

I am a subscriber to XM Satellite Radio and look forward to its traffic and weather channels. XM satellite radio provides variety and quality that are not available elsewhere. I pay for these services and it should not be up to the National Association of Broadcasters to dictate what I am allowed to hear. I urge you to reject the NAB's petition 04-160 and support XM's ability to provide the kind of programming that I've subscribed to. Unlike broadcast radio, XM is responsive to my programming requests.
